

North Kingstown, Rhode Island

Transforming an Independent Business

North Kingstown presented a completely different challenge.

Rather than acquiring an existing Midas, Wall Enterprises purchased a successful independent automotive repair facility in October 2025.

Our objective wasn't simply to continue operating the business.

It was to completely transform it.

The location underwent a full conversion to the Midas brand, including operational integration, employee training, new technology, updated branding, standardized processes, and the introduction of the Wall Enterprises customer experience.

The transition exceeded expectations.

North Kingstown Performance

Year	Sales
2024 (Before Acquisition)	\$913,226
2025 (Acquired October)	\$1,228,976
2026 Year-to-Date	\$1,232,470

Even before completing its first full year under Wall Enterprises ownership, the location had already surpassed its previous annual sales volume.

North Kingstown demonstrates our ability to successfully integrate independent businesses into a nationally recognized brand while preserving local relationships and positioning the business for long-term success.
